RÉSUMÉ

— Hello! I'm skilled frontend developer with 7 years of experience in UI/UX design, application development, and database modelling. I strive to craft precise, responsive, fast, easy-to-use environments with both strong purpose and great looks.

EXPERIENCE

1st October 2016 – present
Senior full-stack developer at **Dutchstar**
- build, test, and deploy applications written with React + Redux and Phalcon + MySQL

25th May 2014 – forever
Married to **Lyudmyla Mandzyuk**
- do all the different things

1st September 2012 – 30th September 2016
Service Center Databases Lead at **Sumitomo Electric Bordnetze Ukraine**
- managed MySQL multi-master clusters, Oracle failover clusters, Microsoft SQL mirrored/replicated servers (monitoring, backup/restore, users/groups/roles, schemas)
- built and benchmarked fast, efficient SQL queries
- optimized database engines, indexes, etc.
- crafted web dashboards, reports using HTML5, CSS3, JavaScript, SQL

1st February 2011 – 30th September 2016
IT production subdivision manager at **Sumitomo Electric Bordnetze Ukraine**
- designed computer-aided manufacturing processes
- interconnected different production systems' databases (push or pull data using replication, triggers, scheduled events, cron jobs)
- built high-availability systems, minimized downtime
- designed and built BDE (BetriebsDatenErfassung) — data aggregator system designed to assist in planning, manufacturing, monitoring and controlling
- analyzed and transformed data
- wrote docs, manuals, guidelines, and memos

14th February 2008 – 31st January 2011
Software engineer at **Sumitomo Electric Bordnetze Ukraine**
- designed UI and UX for native applications and web pages
- built simple apps to assist in manufacturing process using Delphi, VB, Java, HTML, CSS, JavaScript, PHP, SQL
- managed Microsoft SQL, MySQL, and Firebird databases

February 2006 – August 2007
Graphic designer at **Terminal**
- designed booklets, flyers, business cards, posters using Adobe CS (Photoshop, Illustrator, InDesign)
